New River Light and Power Company
Purchased Power from Renewable Energy Facilities (a.k.a. Buy All / Sell All)
Schedule "PPR"

Availability

This Schedule is available to Sellers who operate a photovoltaic (PV) generation energy source in parallel with New River Light and Power Company's (NRLP) system. The Seller's PV generation energy source must be located at a site that would allow interconnection with NRLP's distribution system.

The rated AC capacity of the PV generation energy source shall not be designed to exceed 1,000 kilowatts (kW). The PV generation energy source connected in parallel operation with NRLP must be manufactured, installed, and operated in accordance with governmental and industry standards and must fully conform with the NRLP's applicable interconnection standards.

For generation facilities, other than those described above, and falling under the definition of Qualifying Facilities as defined by the Federal Energy Regulatory Commission's Order No. 70 under Docket No. RM79-54 and 18 C.F.R. §§ 292.203, 292.204, and 292.205, the reimbursement for purchased power will be based on NRLP's Schedule Rate SPP Demand, Schedule Rate SPP No Demand and Schedule Rate SP Fixed as established in North Carolina Utilities Commission Docket E-100, Sub 175 and as adjusted in future approvals of the North Carolina Utilities Commission.

Type of Service

NRLP will receive 60 cycle service through one meter, at one delivery point, at one of the following approximate voltages where available:

Single Phase	120/240 volts, or
Three Phase	120/208Y volts, or
Other available voltages at NRLP's option.	

The type of service supplied will depend upon the voltage available. Prospective Sellers should ascertain the available system voltage at NRLP's office in Boone, NC, before purchasing equipment.

Schedule "PPR"

Monthly Rate

NRLP shall pay for energy delivered to NRLP under this Schedule at the energy credits set forth below.

Energy Credit: \$0.060938 per kWh per month.

This Energy Credit is subject to change upon North Carolina Utilities Commission approval of each of NRLP's future Purchased Power Adjustment Clause filings as referenced in NRLP's Schedule "PPAC".

Any renewable energy credits (RECs) associated with electricity delivered to the grid by the Seller under Schedule PPR shall be retained by the Seller.

Rider Requirements and Conditions

1. The Seller must complete an interconnection request and submit same to NRLP prior to receiving service under this Rider.
2. In the event NRLP determines that it is necessary to install a dedicated transformer or other equipment to protect the safety and adequacy of electric service provided to other customers. The Seller shall pay an Extra Facilities Charge as identified in NRLP's Schedule MS.
3. By subscribing to this Rider, the Seller grants NRLP access to the Seller's property and premises as necessary to test the Seller's PV generation energy source for compliance with the applicable interconnection standards of NRLP. Should it be determined that the Seller's installation is in violation, NRLP will disconnect the PV generation energy source from NRLP's distribution system. The PV generation energy source will remain disconnected until the installation is brought back into compliance.

4. If the Seller is not the owner of the premises where the PV generation energy source is located, the owner of the premises, at NRLP's request, must give satisfactory written approval of the Seller's acceptance of service under this Rider.

Contract Period

The Initial Period for service under this Schedule shall be one year and thereafter shall be renewed for successive one-year periods. After the initial period, the Seller may terminate service under this Schedule by giving at least sixty (60) days prior written notice to NRLP of such termination. NRLP may terminate this service for violation of any requirement or condition of this Rider.
